Mission

To ensure global access to safe,effective, and affordable medicines by delivering high-quality pharmaceutical products that meet international regulatory and quality standards.
Through continuous improvement and operational excellence, Shayana Pharmaceuticals LLC is committed so supporting patient care systems, and contributing to a healthier world.

Vision

To become a globally respected pharmaceutical company recognised for manufacturing excellence, regulatory leadership, and patient-centric innavation. We envision building world-calss, sustainable production capabilities at Tashkent Pharma Park, expanding into nutraceuticals and establishing a strong presence across ASEAN, LATUM and African markets - all by 2030.

Values

- Quality Without Compromise
- Patient-Centric Commitment
- Regulatory Integrity
- Continuos Innovation
- Global Responsibility
- Mutual Growth

SHAYANA FARM LLC

Shayana Farm LLC is a leading international pharmaceutical company with over 25 years of excellence in healthcare, committed to delivering safe, effective, and affordable medicines worldwide. Established in 2002 in Tashkent, Uzbekistan, the company has grown into a diversified healthcare group with operations and partnerships across Asia, Africa, and CIS regions.

Guided by the vision of its Founder and Chairman, Dr. Ashok Kumar Tiwary, Shayana Farm has built a strong reputation for quality, innovation, and social responsibility. Under his leadership, the company continues to strengthen Indo-Uzbek relations while expanding its global pharmaceutical footprint.

Shayana Farm operates with a clear promise: to ensure global access to high-quality medicines that meet international regulatory and quality standards while remaining cost-effective. The company integrates continuous process improvement, advanced quality systems, and patient-centric practices to support sustainable healthcare delivery.

With a presence in Uzbekistan, Russia, India, Singapore, China, Philippines, Kazakhstan, Azerbaijan, and several African countries, Shayana Farm serves diverse markets through a robust distribution and partnership network. In 2024–25, the Group achieved revenues exceeding USD 40 million, with consistent annual growth of 23–25%, reflecting strong market performance and operational excellence.

The company's extensive product portfolio spans major therapeutic segments, including cardiovascular, anti-diabetic, endocrine, pain management, anti-allergic, gastro-intestinal, neurology, gynaecology, antibiotics, anti-fungals, vitamins and nutrition, and neuropathy management. Its flagship brands such as Qupen, Feromax, Vitarich, Torrox, Welson Injection, and Ceklon DX hold leading positions in their respective segments.

Shayana Farm has demonstrated industry leadership through the successful launch of first-in-country formulations, including Geosef (Cefepime + Tazobactam) and Ceklon DX (Sildenafil + Dapoxetine). Supported by a workforce of more than 500 qualified professionals, the company maintains strong capabilities in marketing, regulatory affairs, supply chain, and quality assurance.

In line with its long-term vision, Shayana Farm has initiated the development of a flagship greenfield manufacturing facility at Tashkent Pharma Park. This multi-block EU-GMP and WHO-GMP compliant project is expected to commence operations in 2027 and will further strengthen the company's manufacturing and export capabilities.

With a strong foundation built on quality, integrity, innovation, and collaboration, Shayana Farm LLC continues to advance its mission of improving global healthcare outcomes while creating long-term value for patients, partners, and communities worldwide.

WELL MED PHARM

Well Med Pharm LLC is a vertically integrated pharmaceutical manufacturing and marketing company and a valued member of the Shayana Farm Group of Companies. The company was first established in 2017 as a manufacturing unit in Uzbekistan and has since evolved into a strong, compliant, and growth-oriented healthcare organisation.

In October 2021, Well Med Pharm formally launched its marketing operations, marking a new phase of expansion. Beginning with nutraceutical and dietary supplement products in 2022, the company diversified into pharmaceutical formulations in 2023 and introduced dedicated RX and OTC sales divisions to strengthen market coverage. By 2024, Well Med Pharm expanded its presence through leading distributors and major e-commerce platforms, while building partnerships with local manufacturers.

Today, the company serves a nationwide customer base of over 1,400 clients and operates across key regions of Uzbekistan. In 2025, Well Med Pharm achieved total sales of approximately 24.5 billion UZS (USD 2 million), reflecting strong commercial performance and growing market confidence.

The company's manufacturing facility operates in compliance with O'zDst 2766:2018 GMP standards and successfully passed its third certification audit in December 2024. Between 2020 and 2024, more than 1.75 million product packs were manufactured, supported by continuous investments in modernisation, automation, and infrastructure. Major upgrades include enhanced ventilation systems, high-capacity generators, capsule-filling equipment, and sachet packaging lines.

Well Med Pharm maintains a strong and expanding product portfolio, with its top-performing brands including Teonvel, Aminoral, Zebson, Mometop, and GEM-AP. These products have established a solid reputation for quality, efficacy, and reliability in the domestic market.

With a dedicated workforce across manufacturing, marketing, regulatory affairs, and management, Well Med Pharm remains focused on operational excellence, regulatory compliance, and customer-centric growth. The company continues to invest in product registration, capacity expansion, and new dosage-form facilities, including planned ointment, gel, and tablet production units.

Driven by professionalism, innovation, and long-term vision, Well Med Pharm LLC is committed to delivering high-quality, affordable healthcare solutions while strengthening its position as a trusted pharmaceutical partner in Uzbekistan and beyond.

KAISER PHARMA

Kaiser Pharma is a young, dynamic, and fast-growing pharmaceutical marketing and distribution company established in 2020 in Uzbekistan. Driven by a strong strategic vision, Kaiser is committed to serving patients with high-quality, safe, and affordable medicines while continuously upgrading systems, technology, and knowledge to ensure excellence in productivity and quality.

Our core business focuses on the marketing and distribution of pharmaceutical products, including infusion and oral formulations. All products are marketed under Kaiser's own brands and are developed in partnership with internationally recognised pharmaceutical manufacturers such as Reliance Healthcare, Emcure Pharmaceuticals, Saga Laboratories, Coral Laboratories, and other reputed companies.

Kaiser Pharma operates with a clear mission: to live in harmony with the community and contribute meaningfully to healthcare and the well-being of society. We believe that enabling people to lead healthy, quality lives is not only a business objective but a responsibility.

Under the leadership of Director Mr. Kiran Desai, who brings over 17 years of experience in the pharmaceutical industry, including more than 14 years across CIS markets, Kaiser Pharma has built a strong foundation of market understanding, strategic thinking, and operational agility. With a background in Finance and an MBA specialising in Marketing and International Marketing, Mr. Desai drives the company with deep expertise in business development, strategy, and market expansion with an average growth rate of ~7% per annum in last 10 years.

Recognised as one of the fastest-growing pharmaceutical marketing and distribution companies in Uzbekistan, Kaiser Pharma combines market insight, strong partnerships, and a proactive approach to identify emerging healthcare needs and respond with speed and precision.

Our goal is not only to grow in sales but to stay ahead by discovering new market opportunities and delivering value-driven healthcare solutions.

Dr. Ashok Kumar Tiwary

Founder and Chairman - Shayana Farm and Group

Dr. Ashok is a respected entrepreneur, community leader, and advocate for Indo-Uzbek cooperation. Born on 2 March 1972 in Chapra, Bihar, India, into a modest family background, he overcame significant financial and social challenges through determination, education, and perseverance.

He completed his schooling in Bihar and pursued higher education in engineering at the Moscow State Academy of Instrument and Computer Science. In 2000, he graduated with a Bachelor of Science in Engineering, specialising in technology, equipment, and atomisation of machine-building production. His early academic journey laid the foundation for his technical expertise and business vision.

In 2001, after exploring multiple CIS countries in search of professional opportunities, Dr. Tiwary arrived in Tashkent, Uzbekistan. Facing financial constraints and personal risks, he demonstrated remarkable resilience and entrepreneurial courage. With unwavering commitment and support from his family and trusted associates, he established Shayana Farm LLC on 26 October 2002.

Under his visionary leadership, Shayana Farm has grown into one of Uzbekistan's leading pharmaceutical companies. In 2010, he was recognised among the Top 10 Most Progressive Businessmen of Uzbekistan. In 2020, the company achieved major milestones, with its flagship brand QUPEN becoming the nation's leading NSAID brand and Shayana Farm ranking among the top five pharmaceutical companies in the country.

Beyond business, Dr. Tiwary is deeply committed to social and community development. In 2021, he became Chairman of the Indian Community in Tashkent, representing and supporting thousands of Indians living in Uzbekistan. His leadership during the COVID-19 pandemic strengthened bilateral cooperation and humanitarian support between India and Uzbekistan.

His contributions have been widely recognised. He received the Pravasi Bharatiya Samman Award in 2023 from the President of India and the Bharat Ka Gaurav Award at the British Parliament in the same year. In 2024, he was conferred an Honorary Doctorate by Symbiosis International University and completed his master's degree at Tashkent State Technical University.

Today, Dr. Ashok Kumar Tiwary continues to guide Shayana Farm with integrity, innovation, and social responsibility. His journey reflects a lifelong commitment to excellence, cross-cultural partnership, and sustainable growth, making him a driving force behind the company's success and its contribution to global healthcare.
